

CGI's Global Delivery Model

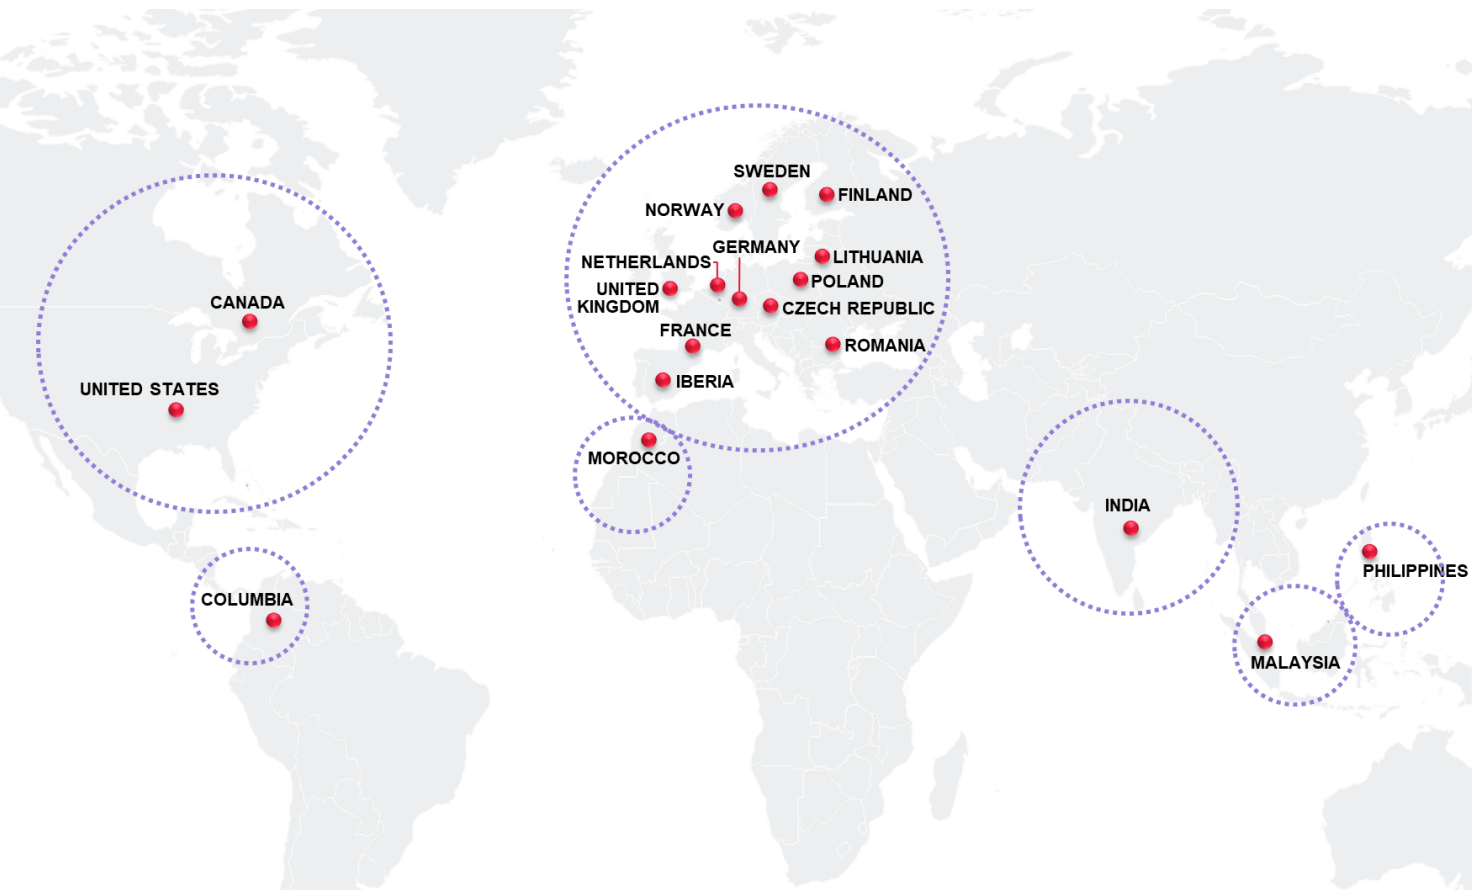

A best-fit delivery model for
your business needs

CGI

CGI's extensive global delivery network is the foundation of our service delivery model

CGI's global delivery model helps drive down costs and speed up implementation of strategic initiatives, enabling you to compete and win in the global economy. At CGI, we invest to meet our clients' future challenges through a full-service portfolio and flexible delivery options that balance cost, quality and risk.

Our best-fit delivery approach includes CGI's client proximity model that provides for local resources to deliver the quick response and local accountability required for success. Through these local teams, we offer competitive services through an optimal blend of delivery centers, either locally or globally, all operating under CGI's Management Foundation to generate consistent results.

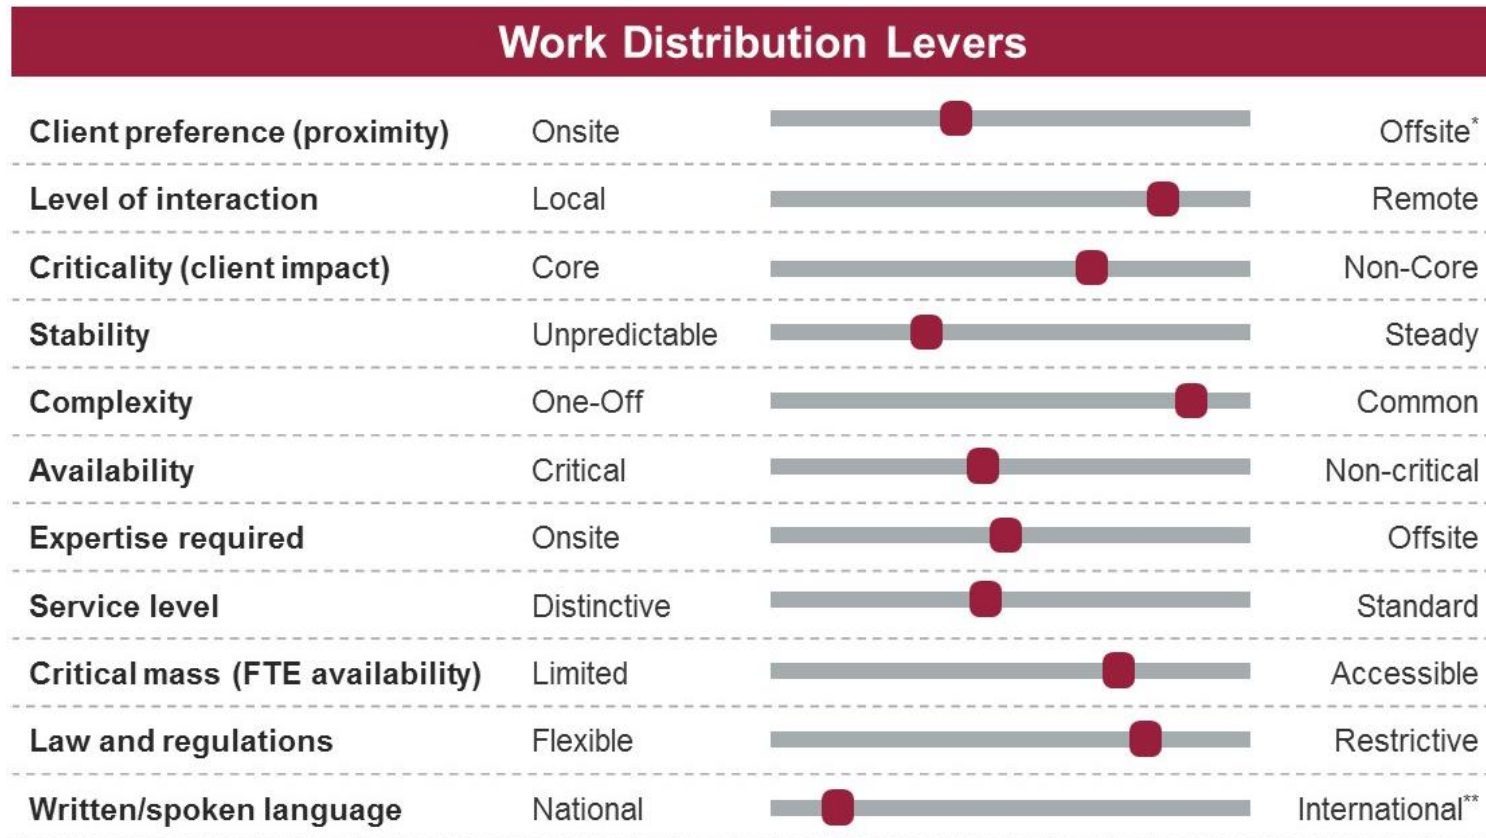

Global delivery network advantages

- 1 **Service delivery maintained onsite that benefits from client proximity**
- 2 **Local support to provide quick response time**
- 3 **Flexible, expandable service delivery** and support through a combination of delivery centers that provide the right skills from the right location, at the right time, and for the best price
- 4 Strategic approach to **protect clients against cyber threats**
- 5 **Stringent governance and quality standards**, along with coherent productivity tools, processes, metrics, and automation to provide for reliable and effective services
- 6 Proven knowledge management and transfer methodology to **ensure knowledge protection**

local and global
presence

CGI's model provides flexibility to adapt to your business needs

Customized solutions using best-fit delivery approach

With CGI's governance model and approach, our clients benefit from a personalized global delivery solution tailored to a range of factors.

CGI's work distribution lever model allows for work distribution adjustments, providing flexibility to adapt to evolving needs of both our clients and regulatory bodies.

* Offsite = Onshore, Near shore and Offshore
 ** International = English, French and Spanish

“CGI is the global partner of our company, as part of a multi-year application development and maintenance contract covering business applications in supply chain and logistics, marketing and sales, and enterprise performance management. We deliver our services via a blend of onshore, nearshore and offshore delivery options, with several hundred FTEs worldwide, in a co-management framework. This innovative, best-in-class governance model provides the highest level of collaboration and intimacy, promoting entrepreneurship and enabling our long lasting, value-driven partnership to thrive.”

Global Executive
International Manufacturer

“CGI demonstrated strong leadership and a clear ability to impart change and maturity into our company, both in terms of evolving the IT estate but also our working practices and behaviours. It was that leadership stance and transformational change capability that really stood out for us during the selection process, as well as impressive synchronization across CGI’s global offices when it came to systems and processes.”
